WHEN TO COMPLETE A LOGBOOK

A Trip is Defined as one outing with one group of clients that ends when that group of clients OR fish (if fish were kept), are off-loaded or dropped off.

A trip that consists of no paying clients, that is, all anglers are “comped”, would NOT be considered a chartered trip and a logbook data sheet should not be completed.

Before a Trip Begins, the Guide must Record:

- The 2010 sport fishing license number, permanent identification number (PID) or disabled veteran (DAV) license number for anyone that will fish during any part of the trip, including paying and non-paying (comped) anglers and crew.
- The first and last name of each angler in the space provided below their license number.
- The word “Youth” in the fishing license space along with the first and last name on the name line for all anglers under the age of 16. Multiple youth anglers on a trip should be recorded as Youth 1, Youth 2 etc.

Complete the logbook through the last trip of the season in the following manner:

Returning to a Dock:

- Complete and sign the logbook data page before offloading any fish from the vessel. If no fish were kept, complete the logbook data page before offloading any clients.

No Docking Facilities (e.g., trailered vessels):

- Complete and sign the logbook data page before the vessel or guide departs the launch/landing site AND before offloading any fish from the vessel:
- If no fish were kept, complete the logbook data page before the vessel or guide departs the launch/landing site.

No Vessel Used (aircraft, highway vehicles, walk-in, ATVs, etc.):

- Complete and sign the logbook data page before the guide leaves the fishing site. Fishing site is defined as the location where fishing activity took place.

Multiple Trips per Day:

Use a separate logbook data page for each trip of multiple trips in a day. Complete the logbook data page at the end of each trip as described above.

Multiple Day Trips:

Complete the logbook data page at day’s end for each day of the trip. Use a separate logbook data page for each day of that trip.

Do not complete trip information for those days when guided fishing activity did not occur. For example, if a multi-day trip of five days occurred and only three days included charter fishing, only three logbook data pages should be completed and returned. On those three logbook data pages completed, the Port or Community of Off-Loading would be the name of the community where clients and fish were offloaded at the END of the trip, NOT the name of the bay or cove where the vessel anchored for the night.

RETURN THE LOGBOOK DATA PAGES WEEKLY

Fishing activity that occurs prior to April 5, 2010 is due to ADF&G by April 12, 2010; all activity thereafter must be received by ADF&G **EVERY WEEK** as detailed in the schedule provided on the inside of the front cover of this book. Logbook data pages can be submitted to any regional or area ADF&G office or mailed to the address printed on the back of each logbook page.

RESPONSIBILITY OF OWNER & GUIDE

It is the responsibility of the guide to ensure that daily trip activity is accurately recorded as described in these instructions.

It is the responsibility of the business owner (owner of the sport fish operator's license) to ensure that all data for fishing activities from January 1, 2010 through December 31, 2010 is submitted to ADF&G in the manner previously described.

VESSEL REGISTRATION

All vessels used in sport fishing guide activities must be registered with ADF&G. All vessels must have a current AK registration number issued by the Division of Motor Vehicles (DMV) or a U.S.C.G. documentation number prior to registering with ADF&G. **If the vessel has an AK number, the AK number must be displayed during guided fishing operations.**

VESSEL DECALS/RENEWAL TAGS

One set of ADF&G decals will be issued per registered vessel. Decals must be applied and visible on both sides of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass or "Plexiglas", which in turn is secured to both sides of the vessel. Decals can be transferred from one vessel to another, as long as the receiving vessel has a current AK registration number from DMV or a U.S.C.G. documentation number and has been registered with ADF&G (see contact information on page vii). Annual stickers or tags will be issued as vessels are registered and must be adhered directly to the decal in the designated area. Lost decals and tags can be replaced at any ADF&G office.

TRANSFERRING A LOGBOOK

A logbook is issued to a specific business for a specific vessel. All active vessels must be registered and issued a current year logbook from a local ADF&G office.

Logbooks may not be transferred between businesses. Only the business issued a logbook may use that logbook. If a vessel belonging to a business is borrowed, the borrowing business must acquire their own logbook.

If a different vessel is substituted for the primary vessel the original logbook can be used on the substitute vessel for up to **seven (7) consecutive days**. A temporary vessel used for a longer period of time must be issued a new logbook. ADF&G must be notified (see contact information on page vii) with the substitute vessel registration information.

All vessels engaged in fishing with clients on board must be registered and display the vessel decals.

WHAT A GUIDE MUST HAVE IN POSSESSION WHILE GUIDING

While providing sport fishing guide services, a sport fishing guide shall have the following readily available for inspection by request of a representative of the Department or a peace officer of the state:

- Valid sport fishing guide license issued by ADF&G;
- Copy of the current ADF&G sport fishing operator's (business owner) license of the guide's employer;
- Valid Alaska sport fishing license, tags, stamps or permits that are required to engage in the sport fishery for which guide services are being provided;
- Identification card issued to the sport fishing guide by a state or federal agency that bears a photo of the sport fishing guide.
- Other agencies may have additional requirements (e.g. U.S.C.G.). It is your responsibility to determine what those requirements are.
