BILLING CODE 6712-01-F

**DEPARTMENT OF COMMERCE**

National Oceanic and Atmospheric Administration

50 CFR Parts 611, 672, and 676

[Docket No. 950206041-5041-01; I.D. 041395C]

**Groundfish of the Gulf of Alaska; Foreign Fishing; Limited Access Management of Federal Fisheries In and Off of Alaska; Final 1995 Harvest Specifications of Groundfish; Correction**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final 1995 harvest specifications of groundfish and associated management measures; correction.

SUMMARY: This document contains a correction to the final 1995 harvest specifications (I.D. 112894A), which was published Tuesday, February 14, 1995 (60 FR 8470). The rex sole species was inadvertently omitted from the list of the deep-water species complex for the trawl halibut prohibited species catch (PSC) limit allowances.

EFFECTIVE DATE: February 8, 1995, through 2400 Alaska local time, on December 31, 1995.

FOR FURTHER INFORMATION CONTACT: Kaja Brix, NMFS, (907) 588-7228.

**SUPPLEMENTARY INFORMATION:**

Under § 672.20(f), annual Pacific halibut PSC limits are established and apportioned to trawl and hook-and-line gear, and are established for pot gear. The Final 1995 Pacific Halibut PSC Limits, Allowances, and Apportionments are contained in Table 6 (page 8476) of the final 1995 harvest

specifications. Regulations at § 672.20(f)(1)(i) authorize apportionments of the trawl halibut PSC limit allowance as bycatch allowances to the deep-water species complex and the shallow-water species complex. The final 1995 apportionment of Pacific halibut PSC trawl limits between the deep-water species complex and the shallow-water species complex is contained in Table 7 (page 8477) of the final 1995 harvest specifications. Rex sole is part of the deep-water species complex that is discussed in regulations at § 672.20(f)(1)(i)(B)(2). However, rex sole was inadvertently omitted from the list of the deep-water species complex contained on page 8476 of the final specifications.

Accordingly, the publication on February 14, 1995 (60 FR 8470), which was the subject of FR Doc. 95-3483, is corrected as follows:

On page 8476, in the third column, last line, and continuing to page 8477, in the first column, line one, the sentence "The deep-water species complex consists of sablefish, rockfish, deep-water flatfish, and arrowtooth flounder." is corrected to read "The deep-water species complex consists of sablefish, rockfish, deep-water flatfish, rex sole, and arrowtooth flounder."

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 21, 1995.

Gary Matlock,

Program Management Officer, National Marine Fisheries Service.
